September 24th, 2018

To Our Valued Customers:

Resin producers have announced an unexpected price increase on all grades of polyethylene raw materials due to supply and production disruptions in the resin market.

As a result, we are compelled to announce a price increase of **5%** to be effective with orders placed on and after **October 1st, 2018**. This price increase applies to Pitt Plastics products, including t-sacks, can-liners, produce bags, and food service packaging products. Orders placed prior to the effective date are subject to 30-day normal volume history, and shipment must be made before October 14th, 2018.

We appreciate your understanding of this matter and thank you for your continued support of Pitt Plastics. Please contact your local sales representatives for any questions regarding this increase and the status of raw material price movement.

Sincerely yours,

William Grandy
