About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. 20% of that is 2-3 words. We need to reuse at least 20% of key words. Must write in same language as title: Japanese. Also no em/en dashes, no "not only X but Y", "At its core", forced groups of exactly three items. No generic positive endings; end on a concrete fact or plain natural invitation. So we need to include at least 2-3 of those words. Must be one coherent paragraph, 60-90 words. Also English terms: Bora bora, Kimi ni todoke, etc. Must not use forbidden words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Captions include many Japanese terms: ローラ (Rola), ローラ インスタ, ローラ お嬢様jewel, ローラ 身長, ローラー, 有村架純, PEACH JOHN, momo, etc. No emojis, no curly quotes, no markdown, no bold. Use "to" instead of "in order to"; "because" instead of "due to the fact that". Title: "ローラ b 画像". We'll include ローラ, PEACH JOHN, 有村架純, maybe ビキニ, ミニスカ, etc. Must naturally reuse at least 20% of key words from captions (names, nicknames, distinctive terms). So description in Japanese. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Let's count key words: maybe 10-12 distinct key words. Plain text only.

We need 60-90 words in Japanese. But we can aim for about 70 Japanese characters? But we can approximate. Let's aim for ~80 Japanese words (tokens). Actually words: maybe 70 Japanese words (tokens). Japanese words count differently. Count words? We'll write a paragraph.

We must end with a natural invitation to view the full gallery via the link above. So something like "詳細は上部のリンクからご覧ください。" That's a concrete invitation.

We must not use any forbidden words. Avoid "さらに". "furthermore" is forbidden, but Japanese "さらに" maybe considered same. Safer avoid. Avoid "さらに" (furthermore) - that's forbidden. Avoid "さらに" is similar to "furthermore". Avoid "また" maybe okay. Avoid "さらに" (furthermore) is in list? But "また" is not forbidden. Avoid "また" is okay. Ensure not using "また" maybe okay. Avoid "さらに". Safer not use.

We must not use "not only X but Y" constructions. Avoid.

We must not use forced groups of exactly three items. So avoid listing three items in a row.

We must vary sentence length naturally.

We must keep every claim supported by provided captions. "a group of young women sitting next to each other in front of a cake". "ローラ画像 放送事故のようにパンチラ連発、貴重な水着（ビキニあり）姿、ミニスカ美脚、ツル腋写真集". "ランジェリーブランド PEACH JOHN" (lingerie brand PEACH JOHN). So we can mention that the gallery includes images of Rola in a white shirt, a PEACH JOHN lingerie shoot, a beach scene with Bora bora print wallpaper, a group of young women with a cake, and a bikini/mini-skirt shots. "Bora bora print wallpaper hd, Kimi ni todoke beach". Must ensure these are from captions. 白シャツ1枚の大胆ショットで30歳誕生会報告 (Rola white shirt one piece bold shot 30th birthday announcement). So we can mention those.

We need to reuse at least 20% of key words. 20% of maybe 10 key words = 2. So we need at least 2. That's 5 words. Let's pick key words: ローラ, PEACH JOHN, ビキニ, ミニスカ, 有村架純 maybe. We'll include at least 3.

Now write Japanese paragraph 60-90 words. In Japanese, words are not separated. Count words: Japanese words separated by spaces? But they'd count words maybe by spaces. Safer to include spaces between words to count. But we can approximate by using about 70 Japanese "words" (like tokens). They didn't specify word counting method. Usually not. We'll just write a paragraph in Japanese without spaces? But they said 60-90 words. But typical Japanese doesn't use spaces. We'll write with spaces for counting. But final answer must be plain text, no markdown. But we can approximate by counting tokens separated by spaces. " So Japanese. Might be okay.

We'll produce a paragraph maybe around 80 Japanese characters? They said plain text only, no markdown, no lists, no quotes. But that would look unnatural. But we can produce about 70 English words but in Japanese. Might be ambiguous. But they'd count words maybe by English words. But they didn't forbid spaces. But they'd count words in the output language. Safer to produce about 70 Japanese "words" separated by spaces. Spaces are fine.

But typical Japanese text doesn't have spaces. But we can include spaces for readability. But it's okay.
